TRAVEL NEWS

With destinations from Brazil to Sri Lanka offering honeymooners the chance to relax in luxury, these are the romantic hideaways on our radar

Time Out

All that wedding planning warrants some pamper time, right? Indulge in the unique signature treatments at The Tivoli Ecoresort Prala do Forte Bahla in Brazil, where the award-winning Anantara Spa has just opened its doors. Ideal for couples, we love the sound of the Scent of Romance offering, which includes a whole-body exfoliation and massage, as well as a facial and herbal tea. Finish up your experience with a relaxing dip in the pool or hot tub: we're there already... tivolihotels.com

LOVE ISLAND

Whatever your honeymooning style, there's a host of exciting new openings at Crete's spectacular Blue Palace Resort to suit you. Top of the list for foodies is Anthos – a new culinary offering that allows you to dine alfresco while watching a team of expert chefs prepare an elaborate menu in an open-air kitchen. And if you're movie buffs, you'd be mad to miss Therino – a cinema date night on the beach, complete with stars and souvlaki. marriott.co.uk

Riverside retreat

If Sri Lanka's on your honeymoon hitlist, set your sights on The River House, Balapitiya, set on the banks of the Madhu Ganga. With five luxury suites, a private pool and first-class butler service, this ultra-luxe hideaway is perfect for couples looking for a little tranquility after the big day. asiatelsure.lk
